EDUCATION

Vellore Institute Of Technology
Bachelor of Technology in Computer Science

Vellore , TamilNadu
Jul. 2024 – Jul 2028

EXPERIENCE

MyPerro Jan 2026 – Jul 2026
Frontend Developer Intern *Hybrid*

- Engineered the startup's pre-order platform and integrated Razorpay for secure payments, processing 40+ orders during launch campaigns.
- Implemented 5+ reusable UI components, improving development efficiency and maintaining visual consistency across the platform.

IEEE Power Electronics Society (PELS) Feb 2025 – Present
Co-Secretary *VIT Vellore, Tamil Nadu*

- Collaborated with a 30+ member cross-functional team to manage event operations, technical infrastructure, and participant engagement.
- Developed a web-based problem allocation platform within 4 hours to manage and distribute problem statements for 150+ hackathon participants with real-time data handling.
- Directed technical and administrative activities as Co-Secretary, coordinating 10+ events and initiatives across the academic year.

Gravitas '25 – VIT Tech Fest 26 Sep 2025 – 28 Sep 2025
VIT Vellore, Tamil Nadu

- Served as Single Point of Contact for Hackovation, a 36-hour hackathon with 150+ participants.
- Managed collaboration with judges, mentors, and core organizers to ensure zero downtime during event execution.
- Successfully hosted BattleCode for 200+ participants, managing registrations, question pool rollout, and real-time leaderboards.
- Led a 15-member volunteer team, resolving live technical and operational issues.

PROJECTS

PlacementPilot AI | [Live Demo](#) | *React, Node.js, Express, Google OAuth, GPT-OSS 120B, REST APIs*

- Built a full-stack AI interview platform supporting text and video interviews across 4 rounds (DSA, HR, Technical, System Design), with real-time follow-up questions powered by GPT-OSS 120B.
- Integrated Google OAuth, resume-based question personalization from PDF uploads, and an AI feedback engine delivering 3+ actionable improvement insights per response.
- Crafted analytics dashboards tracking performance across 4 interview categories and generated personalized 4-week study roadmaps to identify skill gaps and accelerate preparation.

UrbanWatch | [Live Demo](#) | *React, Node.js, Express, MongoDB, Socket.io, Cloudinary*

- Developed a full-stack civic complaint management system with 3 role-based dashboards for Citizens, Admins, and Field Engineers, enabling issue reporting with image uploads, severity classification, ward allocation, and geolocation details.
- Established a complete issue lifecycle workflow, allowing admins to assign cases and engineers to manage issues across 4 resolution stages while accessing map-based locations and citizen-submitted evidence.
- Introduced 72-hour SLA tracking, real-time notifications, and status updates to improve accountability; deployed using Vercel, Render, and MongoDB to support scalable issue monitoring and resolution.

Weather Dashboard | [Live Demo](#) | *React, TailwindCSS, OpenWeather API*

- Created a full-stack weather platform using OpenWeather API with real-time data and 5-day forecasts.
- Designed a glassmorphism interface with dark/light mode and live clock, improving user engagement by 30%.
- Deployed backend on Vercel, improving response time by 50% and handling 100+ requests/min.

TECHNICAL SKILLS

Frontend: JavaScript, HTML5, CSS3, React.js, Tailwind CSS, Three.js

Backend: Node.js, Express.js, REST APIs | **Database:** MongoDB

Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render
